

## Do Not Disturb (DND)

Santiago Garcia - 2024-05-01 - Inbound

### Do Not Disturb (DND)

When enabled, incoming calls will receive a busy tone or a recorded message for your voicemail. Also, all features that are enabled when you are unavailable will be active if DND is ON.

1. Select Switchboard > Select Number.
2. Select Inbound > Do Not Disturb.
3. Enable DND.

The screenshot shows a mobile app interface for 'Do Not Disturb' settings. At the top, the title 'Do Not Disturb' is displayed in blue, followed by a question mark icon. To the right is a toggle switch. Below the title, the word 'Active' is shown in blue. To the right of 'Active' is a dropdown menu with the text 'All times' and a downward arrow. At the bottom, there are two buttons: 'CANCEL' in a light blue box and 'SAVE' in a dark blue box.

- Do Not Disturb (DND) - Feature to block incoming calls to a phone.
- Sends callers directly to voicemail. DND activation codes

#### Dial codes to enable/disable DND short codes.

- \*78 Do Not Disturb Activation.
