Last Number Redial

Mike Johnstone - 2025-07-08 - *Summary of Calls*

Last Number Redial

This is a very handy feature, particularly if you are using an entry-level handset that does not have this functionality enabled on the handsets themselves.
Last Number Redial allows you to dial the last number that called you by using the shortcode ***66**.

How to start using **Last Number Redial**:

1. Log into your account.

2. Go to **Switchboard.**

3. Select number.

4. Select **Outbound > Last Number Redial.**

5. Toggle to **enable** the setting to **ON**.

6. To redial the last number **you called**, dial ***66**.
