

Yealink Dect handsets

Mike Johnstone - 2024-04-17 - Yealink Devices

Yealink Dect Cordless handsets

Supports W52, W56, W70, W76

Yealink DECT handsets are compatible with our device provisioning system. However, to complete the installation you'll need to manually pair each handset with its base station. This final one minute step, is not covered by Yealink's automatic provisioning services.

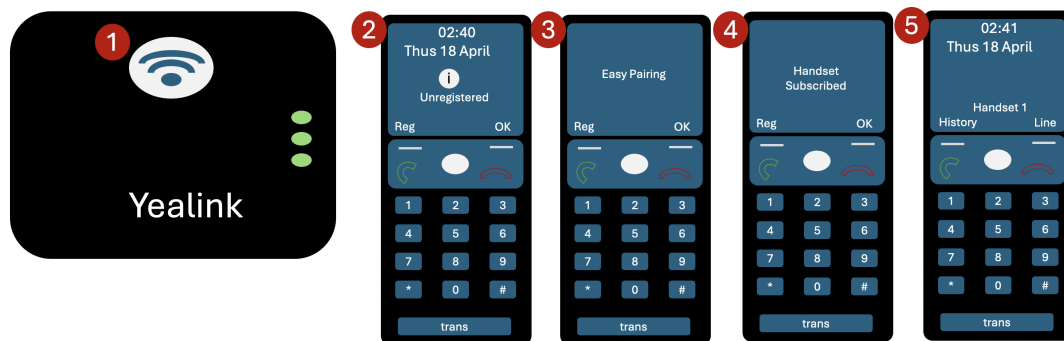

Step 1: Base Station - Press and hold **<Pager Button>**

Step 2: Handset - Press **<Reg key>**

Step 3: Handset - status > **Easy Pairing**

Step 4: Handset - status > **Handset Subscribed**

Step 5: Handset - **Handset Registered.**
